

The Most Practical Project Management Software

What is Wrike?

Wrike is an integrated, online project management solution that helps you manage projects, teams and businesses. By turning email overload into well-organized plans on the Web, Wrike makes your organization more efficient, transparent and agile. Wrike is collaborative, Web-based, easy-to-use and inexpensive, so you can roll it out company-wide.

Why Wrike?

Wrike is **unique project management software** because it:

1. Makes you very efficient, thanks to Wrike's market leading Intelligent Email Engine™ that works seamlessly with your emails.

2. Gives you a complete and up-to-date picture out of many projects, plans and emails using Wrike's unique Flexible Structures™.
3. Fits your budget with powerful features, packaged as an easy-to-use, inexpensive Software as a Service.

Benefits for Executives

Wrike bridges the gap between the strategic plans and everyday jobs of your employees. Wrike's unique features build you a **complete picture of your business** from separate parts, such as projects, employees' to-do lists and departments' quarterly plans. The **picture is updated in real time** by your managers and employees as they email each other and collaborate.

You get a unique control of operations and a clear visibility of your business.

Benefits for Project Managers

Wrike does a lot of routine work for you. It reminds your employees about overdue tasks and composes individual schedules for them. Neat **Gantt Charts are automatically built from your emails** by Wrike's Intelligent Email Engine™.

When it comes to planning and managing, Wrike's Flexible Structures™ is the best solution. They enable you to **apply several work-breakdown structures** to the same project and easily merge different views into a bigger picture. You can share those views with different teams, build project schedules from the bottom up and easily evolve the plan over time.

Benefits for Project Teams

Wrike turns your everyday emails into Web-based collaboration to make you more productive. Wrike's Intelligent Email Engine™ creates online shared space from emails that you send to your peers. Together, you can share and discuss files, organize tasks the way you like. Wrike reminds you about overdue tasks and notifies you about changes in the workspace. It is **very easy to use Wrike** because the Intelligent Email Engine™ **works with any email software**, including BlackBerry, Web-based email and all email clients.

The Buzz

"Our on-time delivery rate and customer satisfaction is close to 95%, since we are kept informed about our tasks/deadlines each day via the daily reminder email and online dashboard. This has made a significant contribution to our team's productivity and level of support. Wrike lets us spend less time on project management and more time on providing strategic marketing services to our internal clients."

Dan Stevens, **Capgemini**
CONSULTING. TECHNOLOGY. OUTSOURCING

"Wrike offers a full-featured, Web-based project management service. I love the easy way that you can assign each task to another person by simply entering an email address in the "assigned to" box. Wrike sends an email inviting the person to sign up and log in to the project's site."
